## Rocket launch countdown video

Undergoing Site Maintenance Florida's Space Coast is the gateway to space. Since the 1950s, we have been at the forefront of American space exploration. We're home to NASA and Kennedy Space Center. Companies like SpaceX, Boeing, United Launch Alliance and Blue Origin call Space Coast home and launch rockets on a monthly basis. There are more rocket launches now than ever before! Next time you visit the Space Coast, see, hear, and feel one of the most dramatic events on earth. Click here to see our full launch plan. While you can watch launches from almost anywhere on the Space Coast, check out this Google Map for some local favorites & NASA suggested locations for the best rocket launch views. If you would like to see more articles like this you can support our coverage of the space program by becoming a Spaceflight Now member. If everyone who enjoys our website helps fund it, we can expand and improve our coverage further. Live coverage of the countdown and launch of a Delta 4-Heavy rocket with the classified NROL-44 payload for the National Reconnaissance Office. Text updates are automatically displayed below. Follow us on Twitter. United Launch Alliance's live launch broadcast begins at 7:45pm .m EST on Thursday, December 10 (0045 GMT Friday, December 11). If everyone who enjoys our website helps fund it, we can expand and improve our coverage further. Update to December 19th: SpaceX has successfully launched the NROL-108 spy satellite to the National Reconnaissance Office. Read our full story here. A SpaceX Falcon 9 rocket will make another attempt to launch the classified NROL-108 spy satellite to the U.S. National Reconnaissance Office on Saturday, December 19, after Thursday's launch attempt was aborted due to a rocket booster thrust problem. The NROL-108 mission is now tentatively scheduled to take off from Cape Canaveral Space Station in Florida during a three-hour launch window.m that opens at 10:30 a.m. You can watch the launch live in the window above, courtesy of SpaceX, or tune in via the company's website. The live broadcast begins about 15 minutes before liftoff. Read more: SpaceX will launch a spy satellite to the National Reconnaissance Office on Friday. Watch it live! SpaceX is now targeting Friday, December 18 for the launch of the NROL-108 mission from Launch Complex 39A (LC-39A) at Kennedy Space Center, Florida. Friday's three-hour launch window opens at 9:00 a.m. EST, or 14:00 UTC, and closes at 12:00 p.m EST, or 17:00 UTC. The Falcon 9's first-stage booster previously supported the launch of SpaceX's 19th and 20th cargo resupply missions to the International Space Station, a Starlink mission, and the SAOCOM 1B mission. After stage separation, SpaceX will land falcon 9 first stage on Landing Zone 1 at Cape Canaveral Space Force Station in Tune in to the space stationFind what the astronauts and cosmonauts aboard the International Space Station are up to by tuning in to the ISS Live broadcast. Hear conversations between the crew and mission controllers on Earth and watch them work inside the U.S. segment of the orbiting lab. Once the crew is free, enjoy vivid views of Earth from space. You can watch and listen in the window below, courtesy of NASA. From NASA's Live video from the International Space Station contains internal views when the crew is on alert and Earth's views at other times. The video is accompanied by audio of conversations between the crew and Mission Control. This video is only available when the space station is in contact with earth. During "loss of signal" periods, viewers will see a blue screen. When the station orbits the Earth once every 90 years, it's not the first time that the station has been in the process of being orbited. When the station is in the dark, external camera video can appear black, but can sometimes provide a spectacular view of lightning or city lights below.
